

Ed Dasse

I ride a road bike [bicycle] 5 or 6 thousand miles a year, work on the house and do a lot of Bible study. I occasionally volunteer at the church to fix stuff they are having trouble with, and, until Covid, I was doing deliveries for Meals On Wheels. We have a daughter in Portland, OR with two daughters, and a daughter in Fort Worth with two daughters and two sons, but we don't get to see them as much as we used before the pandemic. I am proud that our granddaughter in Oregon is at the University of Oregon studying to be an environmental lawyer and that our oldest granddaughter in Fort Worth has been accepted at every college she applied to. All of this keeps me busy enough that I don't have time to do all the things I would like to.
